Will Lead South Africans  
in Europe

**BRIGADIER GENERAL LUKIN**  
Commandant General of the Cape  
Colonial forces in the recent campaign  
against the Germans in German South  
West Africa, has been appointed to  
command the first brigade of South  
Africans for overseas duty.

**Exports \$5,000,000 of War  
Supplies in Single Month**

**America's Business With Al-  
lies Shows Enormous In-  
crease During the Month  
of July.**

Washington, September 8.—American exports of war supplies are increasing enormously now that converted munitions plants are getting into full swing. Figures made public tonight by the bureau of foreign and domestic commerce show that shipments of horses, mules, automobiles, aeroplanes and explosives, all classed as war supplies, aggregated nearly \$5,000,000 in July.

The principal increase compared with June exports was in the classification of "all other explosives," including shells and other ammunition of special manufacture, which jumped from \$5,911,929 to \$9,247,929. Automobiles, the only item to show a material decrease, dropped from \$14,600,000 to \$13,000,000. Horses and mules to the value of \$12,000,000 were exported in July, as against \$10,500,000; 138 aeroplanes, valued at \$850,835, were shipped, compared with 62 machines, worth \$238,219, in June. July exports of cartridges were valued at \$2,245,761, about the same as the preceding month, of dynamite \$10,829, a slight decrease, and of gunpowder \$4,767,929, compared with \$3,234,549 in June.

**MAKING FRESH DEFENCES  
NEARER CONSTANTINOPLE**

**Realize That Dardanelles Will  
Be Forced Shortly—Total  
Losses Already Estimated  
at 250,000 Men.**

New York, September 10.—One of the passengers from Liverpool on the American liner New York, yesterday was an American doctor who has lived in Asia Minor for 10 years, and speaks Turkish. He said that when he left Constantinople, 17 days ago, the Turks realized that the Dardanelles would be forced shortly by the allies, and engineers were busy preparing for the defense of the city. The trenches on the Gallipoli peninsula by making fresh defenses nearer Constantinople.

**TRUCKS HATE RUSS.**  
When Turkey went into the war, he said, 3,000 German officers with Red Cross on their arms passed through Bulgaria, and in the battles that had been fought since, they have stood behind the Turkish soldiers with machine guns and revolvers to make sure they fight.

"The Turks hate the Germans," the doctor said, "but feel they are in their grip so far as fighting goes. The Turks are taking advantage of the war to send all foreigners out of the country. There are 60,000 wounded soldiers in the Turkish capital. After war had been declared, they ordered all Greeks, Armenians, Jews and even Germans to leave Asia Minor, and over 200,000 have been driven out."

**TRUCK LOSSES 250,000.**  
Rome, September 10.—The Corriere d'Italia has received a letter from Athens in which it is said that the total losses of the Turks in the Dardanelles are estimated at 250,000 men. Armenian refugees relate that 70,000 Armenians have been massacred, including several deputies of the Turkish parliament. Every one in Constantinople knows that the bankruptcy of Turkey is imminent, and are devoting themselves entirely to plundering. German officers are becoming alarmed, and are demanding that they be sent back to Germany to fight for their native land.

## BULGARIA AID ALLIES

**Premier Radoslavoff Asserts That It Is Improbable That  
Greece and Serbia Will Adopt a Joint Policy  
Regarding His Country**

Sofia, Bulgaria, September 10.—"Bulgaria's position is now good, and the outlook for the future is favorable," said Premier Radoslavoff in an interview today with the Associated Press correspondent. He added: "It is improbable that Greece and Serbia will adopt a joint policy regarding Bulgaria."

The premier expressed the hope that all political parties in Bulgaria, especially the Agrarians, would support the government in its efforts to achieve the national ideals.

**WHAT WILL THEY DO?**  
Paris, September 10.—What will the Bulgarians do? Will they intervene, and for whom? What is the secret of the Bulgarian enigma? The answer is simple: The Bulgarians do not know themselves.

Thus M. Gall, former editor of the Levant Herald, sums up the intrigues at Sofia, where he has had 30 years' experience. M. Gall spent a fortnight in Sofia interviewing the most prominent politicians. He sums up his conclusions as follows:

**WILL FINALLY JOIN ALLIES.**  
"Bulgaria is evenly divided, because the Germanophile interests are more influential than the entente, but the latter, aided by the Agrarian party, representing the peasants, are numerically strongest. The peasants have three planks—first, the realization of national aspirations in Macedonia; second, never to oppose Russia; and third, never to join Turkey, where the last is inevitably rooted."

However the Germanophiles may obscure the issue, the fact remains that the masses are hostile to the Turks. Action against the allies would cause a revolution. The government threatened, is buffeting Turkey, where the last is inevitably rooted.

**SERB REPLY UNSATISFACTORY.**  
Sofia, September 10.—It has been known here that Serbia's reply to the entente powers regarding Bulgaria's claims is unsatisfactory to the entente powers. Although it is

## The Fair Has a Good Surplus

At a meeting of the Directors of the Red Deer Agricultural Society, September 4th, the following receipts and expenditures of the fair were presented to the meeting for 1915, and the assets and liabilities are also included:

RECEIPTS.	
Donations and advertising	236.00
Entry fees	17.75
Gates and stands	147.75
Yachire breeders, 1915	50.00
Albion breeders, 1915	50.00
Holstein breeders, 1915	50.00
Pro. grant and membership	3,021.22
Dominion grant	2,500.00
Race entries and privileges	282.25
Concessions	85.00
<b>Total</b>	<b>\$7,912.23</b>
EXPENDITURES.	
Straw account	100.50
Travelling expenses, pro. Pres. Day	50.00
Travelling expenses, Olds	2.00
J. Mann	2.00
Printing	130.00
Postage and Staty.	96.80
Advertising	338.00
Expenses and from	27.00
Judges	22.00
Gates and stands	54.00
Hotel of tents	1.00
Telephone and telegrams	65.00
Travel expenses	37.85
Secretary and clerks	195.30
Lambert	17.20
Labor	150.00
Leaves	1,274.50
Sundries	97.85
Insurance	109.95
<b>Total</b>	<b>\$7,653.12</b>
<b>Surplus</b>	<b>\$801.10</b>

**Special prizes** 20.00  
**Advertising accounts** 32.00  
**Concessions** 55.00  
**Yachire breeders** 100.00  
**Albion breeders** 100.00  
**Holstein** 100.00  
**Pro. Government** 3,121.22  
**Merchants Bank** 200.00  
**City of Red Deer** 1,637.76  
**City of Red Deer, interest** 17.15  
**Old Race suspension** 1.00  
**LIABILITIES.**  
**Unpaid accounts** 613.58  
**Merchants Bank, old note** 2,185.00  
**Merchants Bank, new note** 1,400.00  
**Due November 20th** 1,000.00  
**Total** 4,198.63  
**Surplus** 801.10  
**Note**—Provision will have to be made for bank interest on notes until paid off.

## D. C. Coleman Inspects Famous Fossil Beds

**Assistant General Manager  
of C. P. R. Western Line is  
Keen Student of Oryctology**

D. C. Coleman, assistant general manager of the western lines of the Canadian Pacific railway, formerly general superintendent of the Alberta Division, stopped over in Calgary for a few days last week on his way east from the coast, where he spent his holidays.

Mr. Coleman left for the east over the G.T.P., and is stopping at the Red Deer river, where he is examining the fossil fields which have recently become very famous.

The fossil remains of the dinosaur, the mammoth, prehistoric monsters which made their home in Alberta some million years ago.

Mr. Coleman has been interested in the study of oryctology, having made a hobby of it, but although living in Calgary for some time, not until now has he had the opportunity of visiting the great fossil beds of the Red Deer river.

Mr. Coleman is accompanied upon his interesting expedition trip by Sydney E. Jenkins, vice president of the Westinghouse Church Kerr Co., and Isaac Pithblado, N.C., of Winnipeg.

"Anything that I can say about the crop and that is what we are all interested in—would be platitudinous," said Mr. Coleman. "The west has the greatest crop ever, and that is all there is to it. I am upon a pleasure jaunt now, and while I am willing to talk about the wonderful crop, there is nothing more can be said than has been said."

**Sir Wm. Van Horne**  
**Sinking Rapidly**

Montreal, September 10.—The condition of Sir William Van Horne, former president of the Canadian Pacific railway, is sinking rapidly, and little hope is now entertained for his recovery. A bulletin was issued from the Royal Victoria hospital, Montreal, 11. E. Coleman, signed by his physicians, Dr. C. H. Armstrong and Dr. W. F. Hamilton, reading as follows: "Sir William's condition is steadily improving, but the patient is still in a serious state, and grave fears for his recovery are entertained."

The patient's condition was taken to the hospital on August 23 and an operation for abdominal abscess was performed. For the first week following the operation, the patient's condition was reported, and the daily bulletins were discontinued until two days ago, when one was issued stating that the patient was in a more favorable condition. Since then no change was reported until tonight.

## Submarine Duty is Night- mare in the German Navy

**French Correspondent Pays  
Visit to Invincible British  
Fleet; Convinced of Its  
Power.**

PARIS, Sept. 8.—One day a German submarine was sunk in British waters. The undersea boat's commander had sworn to sacrifice his life in finding the British fleet. But when he stood a prisoner on the deck of a British ship and his eyes searched the sea for the armada, a single vessel appeared on the horizon.

"That where is the fleet?" he asked, amazed. Needless to say, I don't intend to say where the fleet is. It is safe to declare that Great Britain's invincible naval power will remain invincible to an enemy until the day it is pleased to risk a naval victory attack—if it ever is pleased.

As to the German submarines, it is known that, notwithstanding daily statements to the contrary by the German admiralty and newspapers, the British have already sunk a lot of them. They have sunk such a considerable number that their own desire seems to be for the submarine warfare to continue.

They have a good reason to attribute Germany's conflicting attitude towards the United States to a desire to find a gracious pretext for abandoning it. Submarine duty has become a nightmare in the German navy.

Despite their habits of passive obedience, the crews of late refuse to go aboard, and the government is forced to appeal for volunteers. Regarding the strength of the British fleet, it is not enough to say that it is formidable; its position is impregnable—the number and power of its units are invincible.

**10,000 SOLDIERS UNDER JELICOFF.**  
Vice-Admiral Sir John Jellicoff has under his orders a fleet of 3,000 ships of all kinds, destroyers, cruisers, submarines, boats, destroyers, submarines and auxiliaries. The number includes at least three hundred warships.

This tremendous fleet always has steam up and is always ready. Its activity is perpetual.

Yours truly,  
PROPERTY OWNER.

## SIR HERBERT AMES IN RED DEER

**He Addressed Patriotic Meeting Last  
Saturday Night**

Inclement weather somewhat interfered with the attendance at the city hall, Saturday evening, when Sir Herbert Ames, of Montreal, outlined the history, the machinery and the requirements of the Canadian Patriotic Fund, of which he is honorary secretary.

E. Michener, M.P.P., occupied the chair, and in opening the meeting recalled briefly the last visit of Sir Herbert Ames to the city, since when, in recognition of his interest in the Patriotic Fund, he had been pleased to honor him. Continuing, he dwelt briefly on the work in connection with the fund in this district, and the dire need of greater contributions to cope with the increased enlistment of married men during the coming year.

A series of interesting views of Canada's army in the making, followed by striking motion pictures, increased enlistment, or contribution to the Canadian Patriotic Fund, preceded the main address of the evening.

Sir Herbert Ames, in commencing, remarked that there were some parts of Canada in which it had been found necessary to call for troops, but not so here. Alberta having the proud distinction of sending more men per capita than any other part of the Dominion. But when he continued, he was met by a storm of every twenty-five, what are the other twenty-four doing? It was around their duty, the speaker stated, that his address of the evening would centre.

On the occasion of his previous visit to the city, he noted, it was thought that Alberta would send from five to six thousand men, leaving probably 1,000 or 1,200 families to be supported. Now, a year afterwards, when it was expected that the conflict would be over, Alberta had sent to the front fifteen thousand men, leaving three times the estimated number of dependants, and the end apparently as far or further off than in 1914.

The Trent powers, in beginning the war, had well estimated the forces with which they had to cope, falling down in but one instance, the British Empire, and it is the forces of the British Empire that will form the preponderant power that decides the issue of the conflict.

On the declaration of war, the speaker continued, British reservists in Canada flocked homeward to their respective regiments, leaving wives and families without means of immediate support, and to take care of these various local relief funds were organized; but with the placing of the first army in the line, the need of a national patriotic fund became apparent, and a meeting was called at Toronto by the Duke of Connaught, with the view of formulating by which every married man could go to the front and his wife be taken care of, and his family be supported.

White as honorary treasurer and the speaker as honorary secretary.

With increased enlistment came the enlargement of demands, and the total amount paid out during the past twelve months was five and a quarter million dollars, which will probably be doubled or tripled during the coming year. If peace was declared tomorrow provision has still to be made for the time elapsing before the soldiers reach home or the reconstruction period.

The first idea of the fund was to let every community look after its own dependants, but owing to the fact that prosperous communities largely contribute fewer recruits than those suffering from financial depression, this placing the larger burden on the most needy was not desirable. It was decided to put in a common purse with disbursements to be made according to the needs. Alberta has been from the very beginning a province of the soldier, and receiving two, while in other districts, less liberal with recruits, the opposite is the case.

The fundamental idea of the fund, as elucidated by the speaker, was to support only soldiers' wives who would otherwise be in need, to raise money from the level of existence to that of decent living.

The option before the men of Canada, Sir Herbert tersely stated, is to fight or pay. The first in itself is sufficient, in the second, by a contribution of \$20 per month, a man, whose duty is to remain at the front, one who is killed being immediately replaced by another.

Dealing with criticisms of the fund, the speaker took up the contention of some that the Canadian government should provide for dependants, showing waste and suffering occasioned from such a system through its inability to discriminate where a sympathetic committee, as embodied in the Canadian Patriotic Fund, could, also, though undoubtedly efficient, would paid government employees the same discretion and consideration of cases as volunteers?

Considering the criticism offered that in some cases families of volunteers are receiving more from the fund than previously provided by the government, Sir Herbert pointed out that he, the breadwinner, however unpromising his previous record, had by volunteering risen to the ranks of a soldier, and the government must take his wife up to a like standing.

Referring to other funds which constantly lay claim to Canadian sympathy, the speaker noted that the Patriotic Fund was the only one that depended solely on Canadians for its existence. In the case of that of Belgium, relief of the citizens of the United States had found an outlet for their generosity, while the Red Cross Fund, one of vital necessity, was receiving international support.

The staff for directing the fund was, Sir Herbert explained, largely volunteer, while unavoidable clerical expenses in his centres were entirely covered by bank interest, so every dollar contributed goes to the bank or to a soldier's wife.

Only a few branches are monthly inspected by the auditor-general at Ottawa, leaving no possible chance of misappropriation or discrepancy. As to the soldiers' wives sometimes raised, do the soldiers' wives appreciate what is done for them, the speaker stated that disclaiming was sometimes necessary in the majority of cases they saw the necessity of spending wisely to facilitate further collection. All were asked as a point of honor to spend their money in the best possible manner.

Allowances were made according to the cost of living in each province, \$22 in the west, \$20 in the east, against \$17.50 in the east.

In conclusion, Sir Herbert urged that everybody make a maximum effort to subscribe to the fund, to increase their present monthly contribution, and though \$10,000,000, it was estimated, would be necessary to meet the needs of the dependants of the British Empire, as well as they can, and so splendidly in men, the central office was willing to provide for the other half million.

Medical numbers during the course of the evening were contributed by Messdames Sanders and Colson, with J. E. Welton as accompanist.

The speaker took up the contention of some that the Canadian government should provide for dependants, showing waste and suffering occasioned from such a system through its inability to discriminate where a sympathetic committee, as embodied in the Canadian Patriotic Fund, could, also, though undoubtedly efficient, would paid government employees the same discretion and consideration of cases as volunteers?

Medical numbers during the course of the evening were contributed by Messdames Sanders and Colson, with J. E. Welton as accompanist.

**Presbytery of Red Deer**  
The regular fall meeting of the Presbytery of Red Deer was held last night in Knox Church, Red Deer. Only two missionaries were absent when called upon to present their report. The members of the Presbytery were convinced that the work done on the frontier fields for the last six months was the most gratifying that had been reported for a number of years. Every missionary was an active worker in the field, and the prohibition campaign, the Presbytery placed on record its appreciation of their services and its gratitude for the success of the W.T. campaign. The proposed campaign in Manitoba and British Columbia indicates the importance of Alberta's lead.

Arrangements were made for the taking of the vote on church union on the student mission not later than September 26th, and in the regular congregations not later than the 3rd Sunday in November. Serious differences of opinion exist throughout the entire church on the merits of this question, and in this respect the Presbytery of Red Deer is no exception. Careful consideration was given to the matter of winter supply on outlying fields, and every possible effort will be made to carry on the work in which the people will be asked to take a more vigorous part.

The ladies of the congregation entertained the visitors to supper in the hall of the church, while most interesting speeches were made by the missionaries. The members of the Presbytery expressed their appreciation of the kindness of the ladies and of the friends who entertained them during their visit.

**Market Report**  
Market last week was exceptionally good. The consumption turned out in first class style. Eggs, butter and meat were in good demand. Every one came along tomorrow. Market opened at 8.30 and 11.30.

Commencing the first Thursday in October, and during the winter months, the market will open at 9 a.m. until 11.30 a.m.

KING FERDINAND  
OF ROUMANIA.

The position of the Balkan countries is just as uncertain as ever. One rumor says that Rumania will support Bulgaria if the latter country attacks Turkey, but the Rumanian King belongs to a branch of the Hohenzollern family and is known to have strong pro-German leanings. It is extremely doubtful, therefore, if he would sanction an attack upon an ally of the German Kaiser, even if he did not actually declare war upon Germany.

## Clearview

A merry party of about thirty boys and girls assembled at the home of Mrs. H. H. Trimble on Tuesday of last week to enjoy a cafeteria party. Several of the ones also put in an appearance and seemed to enjoy the fun as much as any. Abundance of good things could be had in exchange for the liberal supply of make-believe money provided the party, and all went home satisfied that for a good time a party on Mr. Trimble's lawn could not be improved on.

Miss Edna Patterson left for Calgary last week for an indefinite stay. Rev. J. A. Wheeler, of Leduc, has been renewing old friendships around Clearview and took the church service the last Sunday.

Rev. Tomlinson, who left Calgary last week to rejoin his company, expecting soon to go to the front.

## University Boys in England

Regina, Sask., September 13.—Word was received in the city, today, by cable from England, of the safe arrival there of the boat carrying the members of the third university company, reinforcements for the Princess Patricia, recruited from this city.

Phil. Galbraith and A. J. F. Gibson are members of this company. Arthur and Charles Carswell, members of No. 2 Company, left England about the 24th of August for France.

## Predicts Success at Dardanelles

London, September 13.—Lord Robert Cecil, undersecretary for foreign affairs, in a speech at Croton last night, expressed the firm belief that the Dardanelles expedition was near a great success, which "would have an enormous effect in all parts of the world."

## German Women Disguised as French Nurses

London, Ont., September 10.—A letter received last night by Fred W. Coles, of the Globe and Mail company, from Hindhope, Scotland, quotes a Scottish officer home on furlough from the front to the effect that 11 Zeppelin bombers, disguised as French nursing sisters, were recently shot by French soldiers. It was found that the women had been nursing poison in the drinking water of wounded French officers, and that a number had died as a result.

## British Airships Wreak Havoc on Belgian Coast

Amsterdam, September 10.—The Telegrams correspondent at Bruges contradicts a German version of the bombardment of the Belgian coast by British airships. He says that 100 German soldiers were killed and 100 wounded at Zebrugghe. The civilians killed, he says, were not residents, but workmen employed by the German military authorities at the submarine port.

Two submarines and two guns at Zebrugghe were destroyed and a bombardment of the airship was damaged, besides other damage along the coast.

## Synopsis of Canadian North-West Land Regulations.

The sole land of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may preempt a quarter-section along-side his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. COBY, C.M.G., Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.—64388.

# Canada Has Now 150,000 Men Under Arms and Fully Equipped

VERY SHORTLY THE DOMINION'S QUOTA OF MEN WILL REACH 200,000

## Recruiting is As Brisk To-day as It Has Been Since the War Began

INCLUDING the 10,000 men on garrison and home duty in Canada, the Dominion has now under arms approximately 150,000 men. When the twelve new battalions reach England there will be roughly 100,000 men under arms in Europe, 40,000 men in training in Canada, 1,000 men at Bermuda, 500 men at St. Lucia, British West Indies; a Medical Corps at Cairo, Egypt, consisting of three sanitary hospitals; and 10,000 men in Canada, garrisoning Halifax, Quebec, Esquimaux, and guarding canals, elevators, and the western boundary, and on duty at internment camps. With the addition of 50,000 reinforcements Canada will have within a few months a splendidly equipped and trained army of over 200,000 men.

More Men If Needed.

If there is another call for 50,000 reinforcements, the militia authorities anticipate no difficulty in getting the men. They state that recruiting

Magill, chairman of the Grain Commission, "has been made by someone who failed to do proper thought to what he proposed. The Canadian Government could do no more with a 300,000 bushel wheat crop in the event of the British market being closed, than could private owners. The British market is glutted, the purchase of the crop by the Canadian Government would not help matters at all."

"Now what," he asked, "could the Canadian Government do with Western Canada's 300,000,000 bushel wheat crop? If the British market was closed to private owners, it would be just as effectively closed to the Canadian Government. The Government would not be able to export wheat, in the face of a Russian glut of the British wheat market, than could private owners now engaged in the business."

"What do the western men suggest?" Dr. Magill wanted to know.

"Do they propose that Great Britain cease operations at the Dardanelles in order that the wheat which is main bottled up in Russia? Do they expect that in order to save the British market for Canadian wheat, Great Britain will withdraw her support from her Russian ally?"

"If they did do such a thing, they would prejudice Russia's cause, and consequently their own cause. When examined closely, the Calgary suggestion appears foolish."

GRAIN BLOCKADES NOT NOW POSSIBLE

Western Canada has harvested the greatest crop in its history. Exportable preparations have been made by the Government, the Grain Commission, and the railways to handle this bumper crop. It is estimated that despite the size and the rough this fall, that it will be marketed without the blockade or other emergency conditions which was a perennial occurrence before 1911. Speaking of the crop conditions as affecting Western Canada, Magill, chairman of the Grain Commission, says there was never a time in the history of the West when things were more ready for the successful handling of the big crop.

"The fact," he said, "that the grain commission has in service three big storage elevators for emergency purposes. These elevators are located at Calgary, Moose Jaw, and Saskatoon, and together can take care of 10,000,000 bushels of grain."

"Ten million bushels does not seem to be much when one thinks of the big crop," the Commissioner explained, "but with such a margin of insurance, we are amply protected against loss by a blockade."

He went on to show how 42,000,000 bushels could be taken care of at the head of the lakes; 30,000,000 bushels can be stored in Eastern Canada, while 70,000,000 bushels or more is the capacity of the line elevators. Adding to this the 10,000,000 bushels capacity of the three new elevators, 150,000,000 bushels are accounted for. He stated that the right at the commencement of the season, which was almost impossible. The balance of the crop is being easily retained on the farms without hurt, and without piling a bushel of wheat on to the open market.

The Disposition of Troops.

The following table shows approximately the number of Canadian troops raised, their disposition, and where they are at present located: Princess Patricia's Light Infantry (in France)..... 1,000 First Contingent (from Vanuatu)..... 32,000 Second Contingent (in British Columbia)..... 20,000 Reinforcements (1st and 2nd Contingents), in England and France..... 22,000 35th Royal Ottawa (in Bermuda)..... 1,100 Half Battalion (in Canada)..... 500 Hospital, Medical, Veterinary, Engineers, etc. (Overseas)..... 5,000 Twelve Battalions (in England)..... 15,000 34 Battalion (raised or being raised) (in Canada)..... 40,000 12 Batteries of Artillery (being raised) (in Canada)..... 2,000 Six Regiments Mounted Men (raised) (in Canada)..... 3,000 Men on garrison duty and Home Service (in Canada)..... 10,000

Patricians Being Reorganized.

Of the original Princess Patricia's Regiment, the first Canadian force to see fighting in France, less than 100 fighting men are left. However, the regiment is being reorganized, and reinforcements are being sent at once which will bring this crack unit again up to strength.

It may be explained in connection with the above table that at the time when it looked as if Turkey would invade Egypt thirteen regiments of mounted rifles were raised in Canada, principally from the cowboys, plainsmen, and rough riders of the West. When the threatened Turkish invasion came to naught and the fight with the Ottoman Empire developed into siege work at the Dardanelles, the Mounted Rifles volunteered to go to Flanders as dismounted cavalry. Seven regiments are already in England. Six remain in Canada.

WHEAT PURCHASE IS IMPRACTICABLE

The proposition for the Dominion Government to purchase Canada's wheat crop finds no favor with Dr.

Magill, chairman of the Grain Commission, "has been made by someone who failed to do proper thought to what he proposed. The Canadian Government could do no more with a 300,000 bushel wheat crop in the event of the British market being closed, than could private owners. The British market is glutted, the purchase of the crop by the Canadian Government would not help matters at all."

Now what," he asked, "could the Canadian Government do with Western Canada's 300,000,000 bushel wheat crop? If the British market was closed to private owners, it would be just as effectively closed to the Canadian Government. The Government would not be able to export wheat, in the face of a Russian glut of the British wheat market, than could private owners now engaged in the business."

"What do the western men suggest?" Dr. Magill wanted to know.

"Do they propose that Great Britain cease operations at the Dardanelles in order that the wheat which is main bottled up in Russia? Do they expect that in order to save the British market for Canadian wheat, Great Britain will withdraw her support from her Russian ally?"

"If they did do such a thing, they would prejudice Russia's cause, and consequently their own cause. When examined closely, the Calgary suggestion appears foolish."

GRAIN BLOCKADES NOT NOW POSSIBLE

Western Canada has harvested the greatest crop in its history. Exportable preparations have been made by the Government, the Grain Commission, and the railways to handle this bumper crop. It is estimated that despite the size and the rough this fall, that it will be marketed without the blockade or other emergency conditions which was a perennial occurrence before 1911. Speaking of the crop conditions as affecting Western Canada, Magill, chairman of the Grain Commission, says there was never a time in the history of the West when things were more ready for the successful handling of the big crop.

"The fact," he said, "that the grain commission has in service three big storage elevators for emergency purposes. These elevators are located at Calgary, Moose Jaw, and Saskatoon, and together can take care of 10,000,000 bushels of grain."

"Ten million bushels does not seem to be much when one thinks of the big crop," the Commissioner explained, "but with such a margin of insurance, we are amply protected against loss by a blockade."

He went on to show how 42,000,000 bushels could be taken care of at the head of the lakes; 30,000,000 bushels can be stored in Eastern Canada, while 70,000,000 bushels or more is the capacity of the line elevators. Adding to this the 10,000,000 bushels capacity of the three new elevators, 150,000,000 bushels are accounted for. He stated that the right at the commencement of the season, which was almost impossible. The balance of the crop is being easily retained on the farms without hurt, and without piling a bushel of wheat on to the open market.

The Disposition of Troops.

The following table shows approximately the number of Canadian troops raised, their disposition, and where they are at present located: Princess Patricia's Light Infantry (in France)..... 1,000 First Contingent (from Vanuatu)..... 32,000 Second Contingent (in British Columbia)..... 20,000 Reinforcements (1st and 2nd Contingents), in England and France..... 22,000 35th Royal Ottawa (in Bermuda)..... 1,100 Half Battalion (in Canada)..... 500 Hospital, Medical, Veterinary, Engineers, etc. (Overseas)..... 5,000 Twelve Battalions (in England)..... 15,000 34 Battalion (raised or being raised) (in Canada)..... 40,000 12 Batteries of Artillery (being raised) (in Canada)..... 2,000 Six Regiments Mounted Men (raised) (in Canada)..... 3,000 Men on garrison duty and Home Service (in Canada)..... 10,000

## CITY COUNCIL

The City Council met in regular session on Thursday evening, September 9th, with Mayor Carswell presiding over a full board.

No appeals were registered on the special local improvement assessment (boulevards on 4th Street North) for the court of revision, so on the motion of Ald. Botterill, seconded by Alderman Coote, this assessment was confirmed.

## CORRESPONDENCE.

Macintosh & Hyde, per C. L. Richardson, wrote offering to answer any enquiries or give any explanation desired regarding their report on the Western General Electric Co.'s books. Filed.

Loughheed, Bennett & McLaws & Co., Calgary, on behalf of their clients, the Alberta and Saskatchewan Farm Lands and Development Co., acknowledged the notification from the city that their proposition for the payment of \$2,000, part payment on taxes, was accepted, and stated that this sum would be forwarded immediately. Filed.

John Haddon, of the Galt Engineering Co., notified the city that their proposal of supply of cast iron pipe for Drummehall had been received, but owing to the fact that lower tenders had been submitted from Calgary, was not accepted. Filed.

Col. Cruickshank, district officer commanding military district No. 13, Calgary, notified the city that their communication re. training of troops in the city this winter would receive consideration in due course. Filed.

Notifications of the convention of the Union of Alberta Municipalities to be held at Bassano this year, commencing October 20th, were received from President W. D. L. Hardie, of Lethbridge, and Secretary-Treasurer A. W. G. Allen, of Red Deer, together with urgent appeals that the city be represented, many questions of vital municipal interest being slated for discussion. Payment of the membership fee of ten dollars was also requested.

Moved by Ald. Coote, seconded by Ald. Small, that ten dollars be paid to the Union of Alberta Municipalities as membership fee for 1915. Carried. No action was taken as to delegates since the matter is not urgent, but the Council were unanimous in the opinion that the city should be represented. Appointment of delegates left over to another meeting.

Ald. Watson forwarded his resignation as an alderman of the city, the reasons assigned being the municipal developments of the last few weeks.

Ald. Smith testified to his sincere personal regret at seeing Ald. Watson leave the Council, and referred to the splendid service done by him while an Alderman, concluding his remarks by a request that he withdraw his resignation.

Similar sentiments were expressed by Mayor Carswell, Ald. Botterill and Ald. Coote, and a motion introduced by Ald. Coote, seconded by Ald. Botterill, that the resigning Alderman reconsider his resignation, was unanimously carried.

Ald. Watson, who was present, stated he was sorry he could not carry out the wishes of the Council, evidenced in so outspoken a manner, but the events of the past weeks he considered made his resignation a step which he had considered for some time, imperative. Assertions had been made by citizens that he had made statements in the Council, biasing other aldermen, and he considered his reputation of greater worth than his position as an alderman.

Mayor Carswell, in reply, commented that if a man was not big enough or honorable enough to make any complaints against the aldermen in the Council chamber, their assertions were unworthy of consideration.

The Council, despite his refusal to withdraw his resignation, were reluctant to let Ald. Watson go and, with Ald. Botterill as spokesman, repudiated any such suggestion as that Ald. Watson had made any statement likely to prejudice the opinions of any member of the Council, and laid the matter over until later in the evening.

## COMMISSIONERS' REPORT.

The Commissioners brought in the following report: We submit herewith correspondence from Wood, Gundry & Company of dentures. There does not appear

to be any possibility of getting the money for these for some time.

Pursuant to the suggestion of Alderman Botterill, we have taken up with General Sir Sam Hughes at Ottawa and Colonel Cruickshank at Calgary the question of having troops stationed here for the winter. Copy of the correspondence was sent to E. McInerney, M.P.F., and he will take the matter up personally with the authorities in Calgary this week.

We submit reports of the different departments for the month of August.

We submit herewith statement of receipts and disbursements for month of August.

We recommend that receipt No. 1338 for \$78.47, issued on January 14th to Grievie and Berry for taxes on lots, 15 feet of 43, all 44, 45, 46, Block E, Parkvale, be cancelled, and the taxes charged back to the property, as the cheque sent for these was uncollectable.

We recommend that receipt No. 380 for \$27.78, issued on June 10th to J. Iverson, Olds, for taxes on lots 8 and 9, block 42, be cancelled, and the taxes charged back to the property. These taxes were paid by cheque on a bank in Olds. The cheque was sent for collection through the Bank of Montreal by mail and was lost and not collected. Mr. Iverson was notified of this, and asked to send another cheque to replace the one lost, but did not reply to the letter.

All of which is respectfully submitted.

JOHN A. CARSWELL,  
A. T. STEPHENSON,  
Commissioners.

## ACCOUNTS.

Payment of the following accounts was authorized:

Imperial Bank	\$142.21
Bank of Commerce	242.46
Bank of Montreal	1301.03
Bank of Commerce	518.00
John A. Grant	23.79
Red Deer Advocate	10.00
Cushing Bros.	2.70
Day Hardware Co.	3.51
Western Electric	12.14
Geo. H. Harvey	5.75
Dep. Minister Railways	55
Sec-Treas. Memorial Hospital	24.00
City of Red Deer	23.79
Miss T. Meeres	35.00
Wago sheet, August	301.43
Rt. Castle	5.00
S. Millman	2.00
Seacomb & Gatz	23.40
W. Springbett	16.10
Can. Pac. Railway	57
Steam Laundry	1.17
Greene & Payne	10.50
Latimer & Botterill	4.00
Jos. Wallace, J.P.	5.50

The Fire Chief reported no fires or false alarms during the month of August, while one case of typhoid fever, contracted outside of the city, was reported by the Medical Health Officer.

P. H. Anquetil reported a good month at the market, considering conditions, dairy products holding a prominent place during the month, while colder weather will bring on considerable trade in meats and poultry.

Chief of Police Anderson reported one case of drunk and inebriate, one of drunk and creating a nuisance, two wages cases and one case of false pretences during the month.

## UNFINISHED BUSINESS.

Ald. Watson, after considerable persuasion by the aldermen, and consideration of the fact that the withdrawal of his resignation would save the city expenditures necessary for a new election, that the Council had as a body repudiated any statements attaching stigma to his reputation, and that if complaints against him had any real basis they would be made before the Council, agreed to withdraw his resignation and re-occupied his seat as an alderman among general applause.

Ald. Coote advocated immediate consultation with the city solicitors regarding arrears of taxes, and it was decided that the solicitor be requested to address the Council on this question at the next regular session.

Ald. Watson contended that better toilet accommodation should be introduced in the city waterworks to prevent a recurrence of the muddy water supply of this summer. Other cities had overcome this, and Red Deer should do likewise.

Commissioner Stephenson was granted two weeks' holiday at his own request.

Council adjourned at 10.30 p.m.

Dr. Dumba is  
Asked To Quit

Austrian Minister to U. S.  
Not Wanted

Washington, September 10.—U. S. Ambassador Penfield at Vienna has been instructed to inform the Austro-Hungarian government that Dr. Constantin Dumba no longer is acceptable as an envoy to the United States and to ask for his recall.

Secretary Lansing formally announced this action last night. It was the answer of the American government to Dr. Dumba's explanation of his intended letter to Vienna outlining plans for handicapping supplies for the Allies.

Ambassador Penfield was instructed by cable to deliver the following note to the foreign office:

U. S. NOTE TO AUSTRIA.

"Mr. Constantin Dumba, the Austro-Hungarian ambassador at Washington, has admitted that he proposed to his government to instigate strikes in American manufacturing plants engaged in the production of munitions of war. The information reached this government through a copy of a letter of the ambassador to his government. The bearer was an American citizen named Archibald, who was travelling under an American passport. The ambassador has admitted that he employed Archibald to bear official dispatches from him to his government.

"By reason of the admitted purpose and intent of Mr. Dumba to conspire to cripple legitimate industries of the people of the United States and to interrupt their legitimate trade and by reason of the flagrant violation of diplomatic propriety in employing an American citizen, protected by a passport, to deliver dispatches through the lines of the enemy of Austria-Hungary, the president asks me to inform your excellency that Dr. Dumba is no longer acceptable to the government of the United States as the ambassador of his imperial majesty at Washington.

NO ALTERNATIVE.

"Believing that the imperial and royal government will realize that the government of the United States has no alternative but to request the recall of Mr. Dumba on account of his improper conduct, the government of the United States expresses its deep regret that this course has become necessary and assures the imperial and royal government that it sincerely desires to continue the cordial and friendly relations which exist between the United States and Austria-Hungary."

Germans Arrested Hundreds of Citizens After  
Capture of Warsaw

PETROGRAD, September 8th, 12 noon, via London, 3.45 p.m.—A prominent Polish lawyer, who made his escape from Warsaw after its capture by the Germans, made the following statement today:

"Two days after the Germans entered the city more than 400 of the most prominent citizens who remained were arrested without warning or interrogation and sent to Germany. About 700 families were deprived of their heads and of knowledge of their whereabouts.

"Arrests continue daily. The only known reason was that the names of the victims appeared on a list compiled by informers and sent to Germany months ago.

"The Germans displayed their usual thoroughness. Within a few days after they entered the city, three temporary bridges were thrown across the Vistula in place of the structures blown up by the Russians. The electric light, gas and water works were restored and there was early evidence of industrial activity. A house to house search was made and every copper vessel was confiscated. Metal was stripped from any places in which it had been left.

"Articles of cotton and wool were gathered similarly from houses and shops.

"Hundreds of men who previously had worked in factories, were given the choice of internment in Germany or labor for wages at the Krupp works. Every day sees the departure of men who prefer forced labor to compulsory internment in Germany or work in trenches.

"Prince Lubomirsky, one of Warsaw's energetic public men, accepted the post as temporary president of the civic and central committee and under the German military governor. He made it clear that he was a loyal Russian."

## MOTHERS

REMEMBER! The ointment you put on your child's skin gets into the system just as surely as food the child eats. Don't let impure fats and mineral coloring matter (such as many of the cheap ointments contain) get into your child's blood! Zam-Buk is purely herbal. No poisonous coloring. Use it always. 50c. ### THE PUBLIC MEETINGS.

A most unwarranted attack was made in the last Advocate on the Mayor by the manager of the Western General Electric Co. and three members of the Council. The antidote to these childish effusions is found in the columns of the same paper in a report of the meetings. The Mayor can rest his case on that report.

The following are the names, so far as we could ascertain them, of those who voted to submit a by-law:

W. A. Moore  
E. Hog  
J. T. Watson  
W. T. Coote  
H. J. Snell  
E. Johns  
H. W. Snell  
W. Richardson  
W. K. McKens  
A. H. Russell  
W. E. Lord  
G. Lindsay  
J. Carscadden  
F. E. Simpson  
J. W. Broughton.

Of these gentlemen three were connected with the Western General Electric Co., three were not entitled to vote, as they could not vote on a money by-law, and two others were non-residents of Red Deer.

The following fifteen ratepayers voted against submitting a by-law:

E. Michener  
F. W. Galbraith  
Rev. Keith  
F. Billingham  
Mrs. McCraith  
Dr. Collison  
Mrs. Pennington  
Mrs. McKenzie  
Jno. McVicar  
S. N. Carscadden  
W. J. Stephenson  
A. G. Ayres  
W. Loveland  
H. Meares  
W. J. Botterill.

These citizens, who are, we believe, all property owners, are insulted by being told they are a little clique at the meeting to frustrate the real wish of the large body of ratepayers. We believe that any ratepayer studying these names will admit that the Mayor was fully justified in giving the decision he did.

The dense ignorance of some people in municipal matters is only surpassed by their verbosity. For instance, the Mayor is blamed for not submitting a by-law to the people when a majority of the Council can at any time call a Council meeting, as explained in the Advocate, and carry through a motion ordering that a by-law be submitted to the people. The Council would then be responsible.

Mr. Broughton, in the Advocate report, said at the meeting:

"Wetaskwin has reduced its liability of \$150,000 to \$100,000 for its plant to \$96,000, and had returned \$3,000 to \$5,000 in surplus earnings to the city treasury, and that with a power rate of 10 cents, with 5 cents to large users."

The auditor's statement of December 31st, 1914, shows the cost of

the plant as follows:

Station buildings	\$10,974.86
Motive power	45,487.53
Less sale machinery	1,051.75
Electrical apparatus	44,115.76
Pole, wire, transformers and meters	16,652.23
Sundry constructions	25,296.42
	1,773.60
	108,112.89

Less depreciation from commencement of operations on basis of depreciable value

retired .....

Making the present value of the plant .....

The rates charged were 20c per K. W. up to 1909, when they were reduced to 16c. In 1913 they were reduced to 14c, and this year were reduced to 12c.

The same report, which is certified correct by the auditor shows that the net profits on operation for 1914 were \$3,283.03, and that the net loss to that time was \$2,672.00, and the net profit on operation to the end of 1914 was \$560.84.

Previous auditor's reports show that up to December 31st, 1911, the net loss was \$5,322.62, and in 1912 \$1,500 was raised in general taxes to help pay the loss on operation, so instead of the electric light department paying surplus money into the city treasury it has taken money out of the ratepayers in taxes to make up loss on operation.

These figures can be verified by any ratepayer at the city office.

### THE WAY THEY TALK.

The man who was brought from the United States by the liquor party to help them in their battle against prohibition in Alberta, has some notoriety in the United States. He is editor of a Chicago journal known as Brann's Iconoclast, in the August issue of which he gives a good deal of space to the Alberta contest and to his own experience in connection with it. As a sample of his criticism of the Alberta Temperance and Moral Reform Association we submit the following paragraph, apologizing to our readers for taking space for this abuse, but it is fair that our people should know something of the sayings and doings of those who oppose them. Here is a little bit of what the Iconoclast says about the organization named:

This high-sounding name was used to mask the most unscrupulous aggregation of holy hoodlums, villainous liars, bloodthirsty vampires, sanctified pluggies, hypocritical harpies, clerical politicians posing as paragons of purity, that ever sinned in the name of saints, or in the name of religion wallowed in the vile slime of fraud, deception and falsehood. The only name that could be made to fit their perverted principles, malevolent methods, debased ideals and damnable deeds is "Intemperate and Morally Deformed League of Character Assassins." Even this appellation fails to fully indicate the low cunning and refined devilry which the organization practiced during the campaign.

Of course there were a number of good men connected with the machine, and thousands of decent people deceived by its leaders. Against these I haven't a word to say. They have my sympathy and pity, but this article has to do with only responsible leaders who steeped their hands in infamy, filled their hearts with hatred, tipped their tongues and pens with slander and through whose poisonous and polluted lips there constantly crawled a writhing swarm of snake-like, spitting venomance in the face of truth and decency.

A BAD CHAPTER.

(Toronto News).

The statement just issued by the British Foreign Office regarding the Anglo-German negotiations of 1912

shows that Germany schemed to tie Great Britain's hands by a treaty or understanding which would have left the Kaiser free to carry on the war without opposition from the British Empire. Failing to secure Great Britain's assent to such an arrangement, Berlin informed Sir Edward Grey that it would proceed with its larger navy programme. Thus terminated Great Britain's efforts to secure from Germany an agreement for the mutual scaling down of naval expenditures.

It was then that the British Government, dominated by such Radicals and peace-lovers as Mr. Asquith and Mr. Lloyd George, told the Borden Government of the serious naval situation which would arise within two or three years by reason of Germany's ambition. It was then that the Admiralty told the Ottawa Government that the most effective thing Canada could do under the circumstances was to construct three of the most powerful battleships for use in the Royal Navy. The secret information, which accompanied the communication, but could not be given to the public, was shown to Sir Wilfrid Laurier for the guidance of the Opposition.

But the only response was a declaration from Sir Wilfrid Laurier that the German menace was imaginary and that the Kaiser was a great bulwark of peace. For the next few months Canada and the Empire were shamed by the methods to which the Liberal contingent in Parliament and the Liberal press outside resorted in their finally successful determination to prevent preparation for the present world crisis. Official Liberalism has been a bad servant of Democracy and a bad servant of Canada and the Empire.

## School Board

The School Board met in regular session on Wednesday, September 8, with Chairman Payne presiding, and Messrs. Munro, Gaetz, Sanders and Simpson and Principal Locke present.

### CORRESPONDENCE.

Major Outhitt, Headquarters Military District No. 13, Calgary, enquired as to who would be in charge of the school cadets this year. Principal R. H. Addinell was selected for this position and notification to this effect forwarded to the Major.

Provincial Secretary Baster, of the Boy Scout association, wrote requesting that the Board send a patrol of Scouts to Calgary to participate in the parade of members of this organization from all parts of Alberta before the Duke of Connaught on Monday, September 13th. The Board did not see fit to make any expenditure in this connection, but instructed Principal Locke to lay the proposition before the boys for their acceptance or declination.

Notification was received from the Department of Education that last term's grant would amount to \$1505.25.

Authorization was given for the payment of the following accounts: Loves & Todd \$90, Western General Electric Co. \$50, Smith & Gaetz \$320, Wright Hardware Co. \$400, H. G. Stone \$150, L. H. Gaetz \$25, Day Hardware Co. \$20.75, Alberta Government Telephone Co. \$60.

The property committee reported on the carrying out of alterations to the school boilers as specified by the inspector, and the rebricking of the top of one of them.

A motion introduced by Dr. Sanders that engineer J. Watson be consulted regarding the installation of an electric fan to facilitate better ventilation in the public school, was carried.

Motions by Mr. Gaetz that the appointment of A. W. Polley as vice-principal of the High School, be confirmed, and that the secretary communicate with Dr. Miller, the manual training promoter, advising him that if he should be passing through the city this fall, the Board would be glad if he would remain over and give a talk on his work, were also carried.

Attendance figures for the first day of school were approximately the same as those of last year.

The remainder of the evening was taken up in enlightening Mr. Locke, the new principal, as to mode of procedure in taking care in various matters, including finance, the discussion being flavored by spicy anecdotes contributed by members of the Board, while Trustee Simpson uttered an extremely eloquent and elevating discourse on the varied merits of domestic geese, their attributes and antics.

The Board adjourned at 10.15 p.m.

## SKIN SUFFERERS

Your Relief Is Guaranteed.

The D. D. D. Prescription for Eczema, a mild, antiseptic wash, stops that awful itch instantly.

Druggists throughout the city have witnessed such remarkable cures with this remedy that they now universally recommend D. D. D.

## Big Allan Liner Torpedoed by German Submarine Remains Afloat 24 Hours

London, September 6.—The Allan liner steamer *Hesperian* sank at 6.45 o'clock this morning within a few miles of Queenstown, after Captain Main and a volunteer rescue crew of 25 had made a brave fight to bring the crippled ship into port.

During the night the *Hesperian* settled gradually by the head. Daylight showed the decks awash and the liner about to take the final plunge. The captain and crew were taken off by rescue boats and landed later in Queenstown by the steamer *Empress*.

### IN DEEP WATER.

The sinking of the *Hesperian* in deep water probably will prevent an investigation to determine whether the disaster resulted from a submarine torpedo or from a mine.

Passengers and crew assert positively that the vessel was struck by a torpedo, but thus far no statement has been obtained from anyone who saw a submarine or a torpedo. The American embassy is receiving reports from Wesley Frost, U. S. consul at Queenstown, on the question whether warning was given to the liner. Persons so far seen by Mr. Frost state that no warning was given. Capt. Main's statement probably will be taken later.

The list of identified survivors still leaves a considerable number of persons unaccounted for. The Allan line is confident the final checking up will show no loss of life, except for the death of one or two persons after reaching Queenstown.

### NEARLY ALL SAVED.

Queenstown, September 6.—The Queenstown agency of the Allan line announced today that 45 first-class passengers on the *Hesperian*, 125 second class and 168 third class passengers had been accounted for and that it could not say at this time how many were missing.

### MEAGRE PARTICULARS.

The number of men in the crew was given as 280, of whom there have been accounted for 370, not including those who remained on the *Hesperian* until she went down.

These figures, the agency says, are approximately correct. The wireless, according to the officer, was put out of action as the result of the explosion, but the ship's officer climbed the mast and repaired it, and calls for assistance soon were being flashed across the sea.

The first rescue steamer arrived at Queenstown, September 7.

### C. T. ELINE

BUILDER AND CONTRACTOR  
Estimates Cheerfully Given

Address—  
P.O. Box 374 or Phone 236

9.30 in the evening and took survivors out of the life boats. The other steamers came up an hour later and one of them remained with the *Hesperian* until midnight.

### RETIREMENT TORONTO CAPTAIN ON BOARD.

Queenstown, September 6.—(C. A. P.)—Capt. C. S. Wilkie, a retired officer of Toronto, who was aboard the *Hesperian*, was emphatic about the entire absence of mine and praised the stewards highly. He had to slide down a rope to reach a boat when some distance down lost his grip, narrowly escaping falling into the water. He was treated for injuries to his hands by a first class nurse at Queenstown. Capt. Wilkie was an hour and a half in the small boat, which carried thirty others, and came ashore in evening dress.

### PRINCESS PAT'S CORPORA.

SAVED WIFE AND SON.

Queenstown, September 6.—Corp. Abram, of the Princess Patricia's Canadian Light Infantry, a heroic frostbitten in one foot and with a badly rheumatized body. His wife was nursing their young son to bed when a third was heard. The soldier placed a lifebelt on his wife and rushed her and the child on deck. He saw a boat being pulled and saw them and watched them being lowered. Suddenly the boat capsize and he saw his wife and child rise to the surface. Corp. Abram then mounted the tailrail, dived, and rose near them in the water. He got hold of both and swam towards a boat some distance away. Although overladen already, room was made in the boat for little Francis Abram. The father and mother had to stay in the water half an hour longer before they were picked up.

Only one leg was of use to Corp. Abram all this time. When he arrived in Queenstown he was sent to the military hospital and later was brought to the Queen's hotel where, a few minutes before his arrival, his wife had found their baby, who had been brought to Queenstown by the first ship.

### SURVIVOR TELLS STORY OF ATTACK ON HESPERIAN.

Queenstown, September 6.—Mr. Hamilton, a saloon passenger, describing his experience, said: "No warning was given before the torpedo was fired. Suddenly a boatswain cried: 'Submarine on the starboard bow. Almost simultaneously the torpedo struck.' 'I entered a boat with fifty others. The boat took the water safely, but seemed to leak badly. It was necessary to detail two members of the crew to bail constantly. The women behaved well and there was no appreciable amount of panic. We were in the boat about two hours before rescued.' Among the second class passengers were more than 100 women and children.

It is reported that a sailing vessel was torpedoed about the same time as the *Hesperian*.

### SEVENTEEN LOST.

Montreal, September 7.—Seventeen lives were lost on the *Hesperian*—13 passengers and four members of the crew, according to a cable received today by Andrew Allan.

### DIED FROM SHOCK.

London, September 6.—A Chronicle despatch from Queenstown says that Miss Carberry, an elderly passenger of the *Hesperian*, died from shock after being rescued and that another woman, suffering from shock, died after being taken aboard the rescue ship.

### Three Balkan Nations Accept Treaty Revision

Serbia, Roumania and Greece Not Entirely Satisfied With Bulgaria's Claims.

Rome, via Paris, September 3.—Revision of the treaty of Bucharest has been agreed to explicitly by Serbia, Roumania and Greece, according to reports received here, but it is said these countries are not willing to satisfy entirely Bulgaria's claims to territorial compensation for participating in the war.

Bulgaria's pretensions apparently are irreconcilable with what her neighbors are willing to grant and the impression is gaining abroad here that she is prolonging the negotiations with the aim of postponing the day when she must reach a decision.

The treaty of Bucharest, which ended the Balkan conflict following the victory over Turkey, was signed August 10, 1913, between Bulgaria on the one hand, and Roumania, Greece and Montenegro on the other. By the treaty the Roumanian-Bulgarian frontier starts from the Danube above the Partukia and ends on the Black Sea south of Ekrene. The Serbo-Bulgarian frontier starts from the Partukia mountain, continues along the old Turco-Bulgarian frontier and the watershed between the Varda and the Sturma and ends at the mountain of Bistrica. The Greco-Bulgarian frontier starts at the crest of the Balahisli range and ends at the mouth of the river Nestor, on the Aegean sea.

## GILLETTE'S EATS LYE DIET CLEANS-DISINFECTS

## Cholera Rages in Central Empires

Disease Threatens to War More Victims than Peace Sought.

ROME, September 9.—The reason why the Austro-Germans, despite their success in the eastern theater of war, are putting out feelers for peace is suggested by the acknowledged fact that cholera and typhus are raging.

The epidemics have assumed alarming proportions during the last 20 days, 7,427 cases of cholera having been reported in Austria, 3,265 of which were fatal. Cholera is widespread in Galicia, and it is understood that many cases are suspected in Trieste, Carinthia, Carniola and Hungary. Typhus cases number 1,165 have been reported in upper and lower Austria between July 4 and August 14th. Every effort has been made to hide the prevalence of the epidemics, especially in Germany, where the mortality is truly alarming.

Reports have reached the Vatican that cholera and typhus threaten to reap more victims than the war. Denmark, Holland, and Switzerland have agreed to close their frontiers unless the central empires officially announce the extent of the epidemics.

### Public Library

The record of books borrowed from the library during the month of August is as follows:

Philosophy	6
Religion	6
History	6
Science	23
Useful Arts	12
Pine Arts	3
Literature	31
Piction	445
Total	553

A few more books have lately been added to the Library. They are as follows:

"The Bible in Spain—George Borrow"  
"Hammond—Julius Verne"  
"Cambridge—The R. W. Chambers"  
"Nicholas Nickleby—Charles Dickens"  
"Doctor Do—The Dehan"  
"Harold—Bulwer Lytton"  
"Last of the Barons, The—Charles Dickens"  
"Nicholas Nickleby—Charles Dickens"  
"Secret of the Island, The—Julius Verne"  
"St. Ives—R. L. Stevenson"  
"Withering Heights—Emily Bronte"

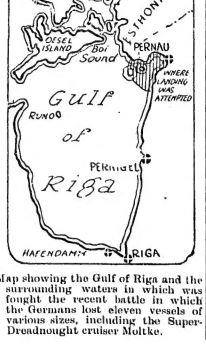

## The Patriotic fund

Everyone, if he be true to himself and to his country, must feel that in the present great struggle he has a duty to perform. All who do not feel that all can and should "do their bit." Those who, having dependents, have gone to fight, have done so on the assurance that those dependents would be amply provided for. Great efforts have been made during the first year to raise sufficient money to enable the committee to keep those dependents. The result has been that the fund for the next twelve months for Alberta alone will not be far short of a million dollars, or two dollars per capita.

There are now about 2,500 families receiving assistance, and this number will be greatly increased. We must all contribute ourselves even to this great undertaking that our obligations to our fellows who have enlisted may be fulfilled.

Contributions may be paid to the Honorary Secretary-Treasurer, Mr. J. E. Cunningham, the collector, Mr. J. A. Youmans, or may be deposited in the credit of the fund in the Merchants Bank of Canada, Red Deer.

Map showing the Gulf of Riga and the surrounding waters in which was fought the recent battle in which the Germans lost eleven vessels of various sizes, including the Super-Dreadnought cruiser *Moltke*.

## Nearly 12,000 of Enemy Captured by Russians

## At Three Points the Slavs Were Successful, Taking Many Prisoners and Large Quantities of Munitions

Petrograd, via London, September 8.—Near Tarnopol the Russians have defeated the third German division and the 48th reserve division, with an Austrian brigade, capturing 8,000 prisoners and 30 guns, besides a quick-firing, according to an official statement issued last night by the war office. The communication follows:

"In Galicia, near Tarnopol, yesterday the Russian army, consisting of three divisions, the 48th reserve division, reinforced by an Austrian brigade, captured 8,000 prisoners, 30 guns, and a large quantity of munitions. The German third division, the 48th reserve division, reinforced by an Austrian brigade, captured 8,000 prisoners, 30 guns, and a large quantity of munitions. The German third division, the 48th reserve division, reinforced by an Austrian brigade, captured 8,000 prisoners, 30 guns, and a large quantity of munitions."

### TOOK 8,000 HERE.

"At the end of the engagement the enemy delivered a great quantity of munitions and a large quantity of munitions. The German third division, the 48th reserve division, reinforced by an Austrian brigade, captured 8,000 prisoners, 30 guns, and a large quantity of munitions."

### A Letter From Mr. Shook of the Aviation Corps

Mr. E. J. Williams, of the Standard Dye Co., has received the following letter from Mr. A. M. Shook of the Aviation Corps:

"Dear Sir, I suppose you are anxious to hear about the flying, and I promised to tell you what it was like. I will do my best, although I find it much harder to tell than I expected to."

"I have had six flights and have spent one hour and three minutes in the air. The machines have dual controls for the instructor and one for the student, so that both can control or either can without change of places. Our course is divided into two parts that with the flying loads, and that with the land machines. The hundreds of sheds for the flying loads are at Hants and those for the land machines are at Long Branch. (I believe you know where these places are.)"

"Our first flight is our job. We are to take our places and try to enjoy ourselves. (A thing I found remarkably easy.)"

"On several days round the machines had been over a hundred flights before my turn came. I gave me perfect confidence and I got into the machine and started to have a good time. The boys passed us off into the water and the pilot started the engine, we taxied around the field (in the water) and got nose of the machine in the wind and turned on full speed. We went rocking over the water far faster than the fastest motor boat on the bay."

"Then when we had gained sufficient speed the pilot raised the elevator slightly and we went climbing into the air, causing a sensation very much like a motor car running off a rough road onto a smooth pavement. We went gradually rose higher and circled around the bay. There were four lake steamers and hundreds of small craft, the sun was shining and we found on the distant horizon a picture imaginary. We were travelling about seventy miles an hour; but you wouldn't realize it, except for the wind that was rushing past your ears. The height I asked the objects seemed to pass very slowly, and you can see so far. One thing is very striking, that is the change in the horizon. You can see things at a few hundred feet in the air. I felt as if I had never seen Toronto until I saw it from the air. The sensation is so different from the sensation of being in the air. I cannot describe it. The only word that comes to my mind is the slang word 'rising.' There is no feeling of being high up. You have a sense of power which gives you every confidence and you want to go higher and higher. The volume is, if I may use the word in this way, delicious. You just glide down to the water, without any of that feeling you experience when descending in an elevator. The whole ride was very enjoyable and I find flying so intensely interesting that I cannot think of anything else which will afford so much pleasure. If you ever get a chance to go up to see and take it."

"We often have been business men over in the first continent. I am getting so I can understand a little French now. We get along all right now. For the people can be taught to speak some English. If you ever get a chance to go up to see and take it."

"I have a tent over at the island right close to the school and would like it very much if you have one. I have a tent over at the island right close to the school and would like it very much if you have one. I have a tent over at the island right close to the school and would like it very much if you have one."

"I have a tent over at the island right close to the school and would like it very much if you have one. I have a tent over at the island right close to the school and would like it very much if you have one."

"I have a tent over at the island right close to the school and would like it very much if you have one. I have a tent over at the island right close to the school and would like it very much if you have one."

"I have a tent over at the island right close to the school and would like it very much if you have one. I have a tent over at the island right close to the school and would like it very much if you have one."

and killed and wounded, left prisoners in our hands of more than 200 officers and 8,000 men. We captured 30 guns, 14 of which were of heavy calibre, many machine guns, gas, and other booty."

"After a brief pursuit our troops occupied their former position on the River Sereth. The emperor, having received a report of the defeat in Galicia, sent an order to the army to occupy their former position on the River Sereth. The emperor, having received a report of the defeat in Galicia, sent an order to the army to occupy their former position on the River Sereth."

"Further south, in the region of Tarnopol, on the 7th, we dislodged the enemy from a series of villages making prisoners over 40 officers and nearly 2,500 soldiers, together with a large quantity of munitions. Between the Diester and the left bank of the Lower Sereth, the Austrians passed to the offensive in the course of the 7th in the region of the village of Vorstynetz. By flank attacks one of our battalions arrested the enemy's offensive and took prisoners 11 officers and over 1,000 Austrians with machine guns. The fortunate withdrawal of our armies from the difficult position before the Vistula, which the Austrians were surrounded by the enemy, is beginning to make itself felt now by partial successes."

"The following letter was written by Jim Garwell, son of E. Garwell, a Canadian soldier in France. Jim's address is No. 3409, No. 1 Co., 10th Batt., C.O.E.F., France. He went over with the 51st Battalion from Canada in June."

"Dear Dad—Received your letter today. I am all right, have been in the firing line for five days, and am in billets now. Expect to go in again soon. Received a letter just before we were leaving the trenches the first time. Things are pretty quiet just at present. We can't say where we are, or what we're doing, or what we expect to do, for all our letters are censored before leaving here, and it is not allowed. I did not try to send in the P.P.C.I. with Charlie and Art, for they wouldn't be ready to come over for a month or two anyway, and besides I knew the boys I was with, and also knew quite a few of the other boys. I came to, so I thought I would prefer to stay with them in preference to going into a strange company, where I might have two or three boys who were through with our training, or pretty near it, and they wouldn't know you. You know what battalion Morrison is with and what he is doing? The harvest is going on here now. People are harvesting grain and tobacco up to within two or three miles of the firing line. After you get back out of the sound of the guns you would hardly think the war was going on. We use French money all the time. It is easy to find out—just the same as ours. All runs in fives and tens. If you multiply by five with their money you get the same as ours. We get all the tobacco and cigarettes we can smoke. We got a lot from the Herald Tobacco Fund. Charlie Saunders got a package of tobacco which was bought from the proceeds of a football match played between the Colliers and the 50th, in which he played."

"There are bath houses here. We go for a bath every time we come out of a post and then in our dirty clothes and get clean ones. We never do any washing. I met a lot of my old pals from Calgary. They came over in the first contingent. I am getting so I can understand a little French now. We get along all right now. For the people can be taught to speak some English. If you ever get a chance to go up to see and take it."

"I have a tent over at the island right close to the school and would like it very much if you have one. I have a tent over at the island right close to the school and would like it very much if you have one."

## Composition of Screenings

Screenings from the terminal elevators at Port William and Port Arthur are composed of shrunken and broken kernels of wheat, oats, barley and flax, with a varying proportion of different kinds of weed seeds. Following is the analysis of a sample representative of 6000 tons of screenings from the 1912 crop as shipped from different periods to United States points: Scalplings 35 per cent, succotash flax 7, buckwheat screenings 18, and black seeds 28 per cent. These are the ordinary commercial separations of screenings. The scalplings were about 65 per cent small and shrunken wheat, 25 per cent other grains, 3 per cent weed seeds and 7 per cent chaff, etc. Succotash flax was 30 per cent, broken wheat, 15 per cent, weed seeds, 15 per cent, chaff and dust. Buckwheat screenings were 50 per cent, wild rye, 29 per cent, broken wheat, 15 per cent, weed seeds, 15 per cent, chaff and dust. Black seeds were 18 per cent, succotash flax 7, buckwheat screenings 18, and black seeds 28 per cent. Sometimes only two separations are made, separating the black seeds. If the black seeds are removed from screenings, the remainder, comprising about 60 per cent of the whole, is a valuable feed for live stock.

## The Rexall Stores

CANADA'S FAVORITE DRUG STORES

## Soaps of Quality

Many makers of Toilet Soaps cater to dealers who regard their customers from the standpoint of profit only—cut quality when it stands in the way of profit.

These soap manufacturers seek to hide the presence of impure materials by the use of pungent perfumes, some using coloring matter if necessary. We trust we have none such.

Every soap maker represented in our stock of toilet, bath or medicinal soaps has earned a reputation for producing high grade goods, such as

- Harmony Rose or Violet Glycerine Soap, 2 for .25
- Rexall Toilet Soap, box of 3 cakes .35
- Palm Olive Soap .2 for .25
- Baby's Own Soap, box of 3 cakes .35
- Woodbury's Facial Soap, per cake .25
- Rexall Skin Soap .15 cake; per box, .40
- Virgin Brand Castile Soap .6 cakes for .25
- Wright's Coal Tar Soap, per cake .15
- Premier Vinolia Soap, per box .35

Buy your soaps from us and you will always be satisfied.

## LOCAL AND GENERAL

Lovine's gloves in a splendid variety at Fulton's.

E. Michener, M.P.P., was a visitor in Edmonton on Friday.

Mrs. Dr. Washburn, of Bowden, is visiting friends in the city.

Miss Ada Dale has accepted a position as teacher at Hill End, Alta.

McLean Bros. opened up a branch general store in Carstairs last week.

S. G. Bannerman was registered at the Macdonald, Edmonton, on Monday.

Take a look at Fulton's window for sweater values. Your choice for \$2.95.

Miss Catherine Campbell, of Little Red Deer, is attending high school here.

W. Lemon, of the Imperial Bank staff, has been transferred to Red Deer, Alta.

Inspector Lindsay, of the R.N.W.M.P., is a visitor at Rocky Mountain House this week.

Donald Chadsey, who is teaching at Tami, Alta., spent last week at his home in the city.

Mr. Robin Law was the guest of Mr. and Mrs. J. H. Woods, of Calgary, over the week end.

Mrs. E. C. Leslie, of Calgary, returned home yesterday after two weeks' holiday at Sylvan Lake.

Rev. Dr. and Mrs. Law have left for Toronto after visiting for a short time at Calgary and Red Deer.

The Red Deer Grocery Co., Ltd., are busy moving their stock into their spacious new quarters this week.

Rev. L. E. Brough, of Heath Baptist Church, Calgary, occupied the pulpit of the Baptist church here on Sunday.

Mrs. Cyril Clarke, of Edmonton, has returned from Sylvan Lake, and is spending a few days with friends in the city.

Lieut. Scott, of C. Squadron, 12th C.M.R., returned to Carstairs yesterday after spending a few days with friends in the city.

Miss Pearce, of Medicine Hat, arrived in the city last week to take a position with the Red Deer Grocery Co., Ltd., as bookkeeper.

There will be an auction sale of furniture at N. White's auction rooms, Gaetz Ave. N., on Friday, September 17th, No reserve.

Mrs. Charles Bremner, who is staying in Carstairs until her son Charles completes his Normal school course, is spending a few days in the city.

S. O. E. meet tonight (Wednesday) September 15th. Business will be followed by a social. All members are asked to bring their lady friends.

September weddings: We have a stock of new patterns in Luby's cut glass, the finest glass in the world. Our assortment will meet the taste of everybody—Harold J. Snell, jeweller.

The annual meeting of the Women's Christian Temperance Union will be held in the school room of the Methodist Church, Wednesday, September 15th, at 3.30 p.m. A good attendance is requested.

Gordon Wilkins, of the Imperial Bank staff, Westsaskatoon, has been transferred to the local branch. He starred in the nets on the northern city's hockey septette last winter, and should catch a place on the line up this season.

The marriage will take place quietly, in the Leonard Gaetz Memorial Church, on Wednesday, September 22nd, at 2.30 p.m. The bride is the second daughter of Mr. and Mrs. Geo. Wilbert Smith, of Mr. Edgar George Johns, of this city.

Lieut. Geo. Rothnie, of the Lord Strathcona House, formerly chief of police here, later at Kamloops, B.C., was reported to be in the Canadian officers on the ill-fated Allan liner Hispania. As far as can be learned, he was among the rescued.

The Best Furniture Co. have four only, medium sized heaters (new), will burn either wood or soft coal, which they will sell at cost price, as they are discontinuing this line. Any one in need of a new heater can save money by purchasing one of these.

Geo. H. Best left three potatoes, grown by himself, at this office yesterday. Their combined weight was 6 pounds and 10 ounces. It would be pretty hard to beat these potatoes, and this is George's first year as an agriculturist, and he didn't half try at that.

Roy Pye, third son of E. Pye, Horn Hill, met with a serious accident last Wednesday by getting his arm caught in the rear wheels of a binder reel. The flesh was badly torn from the arm, and it was some time before he could be extricated. He was brought in to the hospital, and his arm will be saved, although the muscles were badly torn.

For violating the pound bylaw of the village of North Red Deer by allowing his cow to graze at large and cause damage to gardens, it cost Jos. Kalsch the sum of \$2.35 on Monday morning before Justice Wallace. Action was taken by the village upon the complaint of a resident and after written warning had been given Mr. Kalsch, P. E. Kent appeared on behalf of the defendant and pleaded guilty to the charge, intimating also that the cow, which was most difficult to control, had been disposed of. In face of that fact, the village did not request that a fine be imposed and the case was dismissed by the defendant paying the costs.

Nifty hats in new fall styles at Fulton's.

Miss Harkins, Montreal, de visiting her sister, Mrs. A. D. Turnbull.

H. A. Lohsinger, of Edmonton, spent Sunday in the city.

The J. G. LaFrance, of Acmee, is the guest of her mother, Mrs. G. W. Smith.

Miss Gladys Webb has opened a branch studio at Lacombe, where she will conduct classes once a week.

Mrs. Chas. Reid left Thursday for Victoria, B.C., where she has been called owing to her brother's sickness.

Mr. and Mrs. Oscar McCune returned to Strone on Wednesday after spending several weeks with Mr. and Mrs. C. E. McCune.

Mr. McVicar thanks his customers and friends for their loyal support to bookstore at opening of the various schools. A good stock of books still left.

Inspector J. F. Boyce returned Wednesday from a month's visit to his home at Cobourg, Ont. He visited Mr. A. M. Shook at the Curtis Aviation School, Toronto, who, he reports, is making rapid strides toward being an expert birdman.

Capt. Dr. H. George is looking for recruits locally to replace recent drafts from Alberta regiments. One volunteer for the 50th, from Prairie Grange, was sent down last week, and with the completion of harvesting no difficulty is expected in filling all vacancies.

We are informed that the firm of Carter, Dunne and Beale, of London, England, have appointed Mr. J. G. Macgregor, florist and seedman, Red Deer, sole agent for the sale of their famous seeds in Central Alberta; also that the bulb business handled by the Gaetz-Cornett Drug Co., has been transferred to Mr. Macgregor, and patterned are needed that orders for bulbs should be placed early to assure delivery in time for fall planting.

Messrs. Trimble & Landy, of Lacombe, are in the district buying cattle. It is their intention to buy grain at this point as soon as threshing begins.

Mrs. W. W. Gaskarth, of Red Deer, has been visiting with Mrs. Mathebt.

Dr. Stork is busy again. Mr. and Mrs. Porhan are rejoicing over the arrival of a son, Mr. and Mrs. McLean, living near the Blueberry creek, were also included in the city's visit.

There will be a dance in the Eckville hall on Friday next, September 17th. This is the first of the winter season, and it is hoped that a large number will attend. It is hoped that arrangements will be made to hold regular dances during the coming winter.

The promise of a good harvest for this district is now realized, and practically all the grain is cut. Everyone reports splendid crops.

Don't forget the dance on Friday. Will you help make it a success, and encourage those who are trying to provide pleasant evenings for you? Friday, 17th.

**Harvest Festival Sale**

The Salvation Army will hold an auction sale, consisting of various kinds of vegetables, stationery, home-made cake, pies and candy, etc. Monday evening, September 20th, at 7.30 p.m., in the store next to Mr. Coote, gent's furnishing, Ross St.

The proceeds from the sale will go towards our harvest festival effort, which is being carried on all over the Dominion at this time. Come and help us with our work in the city. Refreshments will also be served.

Geo. H. Best left three potatoes, grown by himself, at this office yesterday. Their combined weight was 6 pounds and 10 ounces. It would be pretty hard to beat these potatoes, and this is George's first year as an agriculturist, and he didn't half try at that.

Roy Pye, third son of E. Pye, Horn Hill, met with a serious accident last Wednesday by getting his arm caught in the rear wheels of a binder reel. The flesh was badly torn from the arm, and it was some time before he could be extricated. He was brought in to the hospital, and his arm will be saved, although the muscles were badly torn.

For violating the pound bylaw of the village of North Red Deer by allowing his cow to graze at large and cause damage to gardens, it cost Jos. Kalsch the sum of \$2.35 on Monday morning before Justice Wallace. Action was taken by the village upon the complaint of a resident and after written warning had been given Mr. Kalsch, P. E. ## BIRTHS

Near Ardley, on Tuesday, September 7th, 1915, to Mr. and Mrs. Jack McKinnon, a son.

At Red Deer, on September 8th, 1915, to Mr. and Mrs. B. L. Oulton, a son.

At Red Deer, on September 8th, 1915, to Mr. and Mrs. J. Northey, a son.

At Red Deer, on September 14th, 1915, to Mr. and Mrs. T. Fais, a daughter.

If it's a suit or overcoat, get it at Fulton's.

**Letter from the Front**

France, August 24.  
To the Editor of The News.  
Dear Sir,—I take pleasure in writing a few lines to you, sir, to let you know that the few Red Deer boys in this regiment wish to be remembered to one and all of the citizens at home. We are all well and just as full of life as when we left to do what we considered our duty, and fighting on the best of our ability. We all join in sending our best wishes and regards to all from the undersigned—

J. McGregor  
R. Vince  
J. A. Payne  
P. Caswell  
A. Norquay  
H. G. Payne.

**The Weather**

The weather man was in a capricious mood during the past week, producing rain, some hail, frost and showers of snow. The thermometer showed 11 degrees of frost Saturday night, and after rising but two degrees above the freezing point all day Sunday, dropped down to 18 degrees of frost the following night. Market and flower gardens suffered heavily, but the damage to standing grain crops at present is difficult to ascertain.

**FARMERS' BULLETIN.**

Outward Shipments: Six cars cattle to South St. Paul, 8 cars cattle to New Westminster, 1 mixed car of cattle and hogs to Vancouver and 1 car hogs to New Westminster.

Cattle: This week's top was \$6.65 paid for a very special lot of steers. Other fat steers sold from \$6.00 to \$6.40, cows from \$5.00 to \$5.40, and heifers at from \$5.50. Stock cattle were slower owing to absence of local and poor shipping demand. Some special quality stock cattle brought \$5.75, but this was exceptional, and from \$4.75 was being offered for off-colors and medium kinds.

Hogs: To-day's hogs sold from \$7.65 to \$7.75, with no very active demand at these prices. Block hogs (130 to 140 lbs) readily brought \$7.95. We look for a steady market next week.

Sheep—Wethers \$6.50 to \$6.75. Ewes \$5.00 to \$5.50. Lambs \$7.50. Steers, extra choice, heavy, \$6.50; steers, common to choice butcher, 6.00-6.50; heifers, common to choice heavy, 5.00-6.00; cows, choice, 5.00-5.25; cows, common, 4.00-5.00; cows, common, 2.50-3.00; stags, 1.00-1.50; oxen, common to choice, 3.75-5.00; bulls, 2.50-4.25; veal calves, 200-400 lbs., 7.00; veal calves, 400-500 lbs., 6.50; feeding steers and heifers, 5.00-5.00; springers, choice, 65.00-70.00; springers, common, 55.00-60.00.

Hags: \$8.75 for select, weighed off ears.

The Alberta Farmers' Co-operative Elevator Company, Limited. (Live Stock Department).

**Red Deer Poultry Yards**

We desire to call the attention of our readers to the advertisement of the Red Deer Poultry Yards appearing in another column. The management has had very large experience in the poultry business, and the fact of their opening here should be of great benefit to the farmers and others in the district. The manager explained to us that it is their intention to buy all their supplies in the district, and he particularly desires to have farmers call upon him, as the firm are cash buyers of new laid eggs and poultry at the best possible prices. They will also be requiring wheat, oats, etc., for feed for their large stock of birds. Only the best class eggs and poultry will be handled. The yards and offices are located in the commodious building formerly used as the tannery immediately opposite the lumber mill, North Red Deer.

## Lanterns, Coal Oil Cans

Here are two Extra Good Buys!

We are offering, for a limited time, the genuine

Never Fail Pump

Coal Oil Can

filled with the best grade Coal Oil

For \$2.95

This can holds 5 Canadian gallons, and sells regularly for \$2.95. Coal Oil sells for 25c. a gallon. You are thus saving 80c. by buying this way, which is no small item.

**This style Lantern**

we are selling, for a limited time,

at 75 cents.

Come in and look over our lines.

You will find lots of good buys.
